Counselor's Corner

Test anxiety can cause you to score poorly on a test, even though you studied hard and understand the material. **Tip: Before a test, spend a few minutes taking several deep breaths to promote relaxation. Practice positive self-talk with words of encouragement.**

Military Trivia

By Mark Von Weber, Military Trivia Columnist

The **P-38** is a folding can opener developed in 1942 and issued with K-rations during WWII. John Wayne is said to have demonstrated its use in a US Marine Corps training film, hence the popular pseudonym. Trivia Question: Be the first to identify another piece of US military equipment with the same designation and win a P-38 can opener of your own. Claim your prize, and a can to try it yourself at the VRC, Pilgrim.
